

STUCCO FINISHES (EXTERIOR) >

EXTERIOR STUCCO FINISHES FOR BALE WALLS

DESCRIPTION:

A non-polymerized water-proofing cement, this can be applied by white wash brush or through a rented stipple sprayer to provide a high-end textured stucco finish to the exterior of bale walls, hiding plastering blemishes and providing a water resistant finish. Coverage: 60-100 sq ft per 9kg pail depending on method of application and thickness of application.

- Natural tints (available through Harvest Homes, also) can be added to provide permanent, durable pastel colours or it can be applied in base white or base grey.
- Not suitable over earthen plasters.
- Multiple applications may reduce breathability of walls.
- Comes in base white or base grey

PRICE:

\$20 / 9kg pail

ORDER & DELIVERY:

Minimum Orders: 9kg pail

Delivery Time: Varies, minimum 4 weeks (to allow for factory production) on unstocked quantities

ADDITIONAL INFO:

- Cracks should be filled before application after which this finish will permanently maintain a seal.
- Available in small quantities at some hardware and building supply stores.
- We purchase entire skid loads to ensure you have sufficient supply for the entire house.
